(Students may not work if one has not been filed.) Yes _____            No _____
Provide a brief description of the overall research program with which the student will be associated.

The purpose of this funding is to encourage collaboration between faculty and students. The student work, therefore, must be research-oriented and not clerical in its primary emphasis. Please describe some of the responsibilities of the student and the educational benefits that the student will derive from them.

Please briefly describe the qualifications of the student to assist with your research program.
